Project Design Phase -1

Solution Architecture

Date	30 October 2023
Team ID	NM2023TMID08856
Project Name	Vaccine Tracking - Transparent
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process- with many sub-processes- that bridges the gap between business problems and technology solutions. Its goals are to :

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behaviour, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
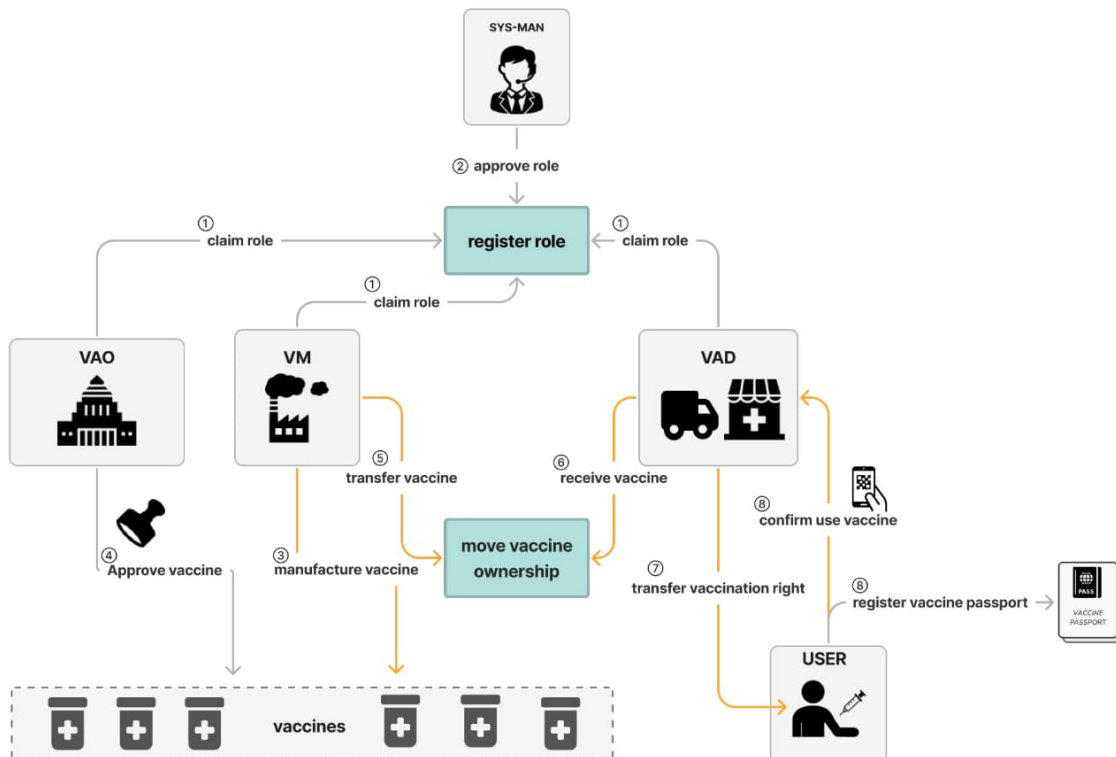

Example- Solution Architecture Diagram:
